DETAILED ACTION

Claim Objections

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claim has been renumbered as claim 1.

Claim 1 is objected to because of improper form.

In accordance with paragraph 608.01(m) of MPEP each claim must begin with a capital letter and end with a period. Periods may not be used elsewhere in the claims except for abbreviations. Parentheses may not be used elsewhere in the claims except for reference characters. Where a claim sets forth a plurality of elements or steps, each element or step of the claim should be separated by a line indentation, 37 CFR 1.75 (i).

Also, “©2004 Mark Court” must be removed from the end of the claim.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2875

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Lamparter (US 5,604,480).

Lamparter discloses (Fig.5) a lighting device having a plurality of arrays of LEDs [20'] that form a plurality of differently shaped symbols.

It would have been an obvious matter of design choice to provide the different decorative shapes formed by the arrays of the LEDs for the purpose of aesthetic appearance.
